Management's Discussion and Analysis
June 30, 2008**

The Management of the School Board of Sarasota County (the District) has prepared the following discussion and analysis to (a) assist the reader in focusing on significant financial issues; (b) provide an overview and analysis of the District's financial activities; (c) identify changes in the District's financial position; (d) identify material deviations from the approved budget; and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District's financial statements and notes to financial statements.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2007-08 fiscal year are as follows:

- The District's financial position improved during the fiscal year ended June 30, 2008. In total, net assets increased by \$88,349,130, or 13 percent over the course of the year.
- General revenues totaled \$563,965,442, or 92 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions totaled \$48,796,436, or 8 percent. Total revenues decreased from \$614,480,096 in fiscal year 2007 to \$612,761,878 in fiscal year 2008. The change is attributed to a decrease in funding for Classrooms for Kids and a decrease in investment earnings.
- Expenses and special items totaled \$524,412,748; only \$48,796,436 of these expenses were offset by program specific charges, with the remainder paid from general revenues. Total revenues exceeded total expenses and special items by \$88,349,130. Total expenses and special items increased \$27,023,050 or 5 percent, from \$497,389,698 in fiscal year 2007. This change is attributed to an increase in instructional salaries and benefits of \$9,626,659 from fiscal year 2007 due to a cost of living increase and increase cost of benefits. Additional increases were in facilities acquisition and construction and instructional staff training services.
- The unreserved fund balance of the General Fund, representing the net current financial resources available for general appropriation by the Board, totaled \$42,253,568 at June 30, 2008 or 10 percent of total General Fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

In addition, this report presents certain required supplementary information, which includes management's discussion and analysis.

Government-wide Financial Statements

The Government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the Primary Government presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about

**SCHOOL BOARD OF SARASOTA COUNTY, FLORIDA

the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets is an indication of whether the District's financial health is improving or deteriorating.

The Government-wide statements present the District's activities in two categories:

- **Governmental activities** – This represents most of the District's services including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the state's education finance program provide most of the resources that support these activities.
- **Component units** –The District presents ten separate legal entities in this report. Although legally separate organizations, the component units are included in this report because they meet the criteria for inclusion provided by generally accepted accounting principles. Nine of these organizations are charter schools. Financial information for these component units is reported separately from the financial information presented for the primary government. The Financing Corporation for the School Board of Sarasota County, Inc., although also legally separate, was formed to facilitate financing for the acquisition of facilities and equipment. Due to the substantive economic relationship between the School Board and the Financing Corporation, the Financing Corporation is included as an integral part of the primary government. Please refer to Note 1 to the financial statements for more information on the District's component units.

Over a period of time, changes in the District's net assets are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets including its school buildings and administrative facilities.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Law establishes certain funds, while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the Government-wide statements.

All of the District's funds may be classified within one of three broad categories:

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the Government-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus rather than the economic resources measurement focus found in the Government-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources as well as balances of spendable resources available at the end of the fiscal year. Consequently, the governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the Government-wide financial statements. To facilitate this comparison, both the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

SCHOOL BOARD OF SARASOTA COUNTY, FLORIDA
Management's Discussion and Analysis
June 30, 2008

Proprietary Funds. Proprietary funds may be established to account for activities in which a fee is charged for services. The District maintains one type of proprietary fund, the internal service fund to account for the District's self-insurance programs. Since these services predominantly benefit governmental rather than business-type functions, the internal service funds have been included within governmental activities in the government-wide financial statements.

Fiduciary Funds. Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the Government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. The District uses agency funds to account for resources held for student activities and groups.

GOVERNMENT- WIDE FINANCIAL ANALYSIS

Net assets may serve over time as a useful indicator of a government's financial position and provides a perspective of the District as a whole. The following is a summary of the District's net assets as of June 30, 2008, compared to net assets as of June 30, 2007.

The largest portion of the District's net assets (81 percent) reflects its investment in capital assets (e.g., land, buildings, furniture and equipment), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

The restricted portion of the District's net assets (15 percent) represents resources that are subject to external restrictions on how they may be used. The unrestricted net assets (4 percent) may be used to meet the government's ongoing obligations to students, employees, and creditors.

Revenues by Source – Governmental Activities – in Millions of Dollars

Expenses – Governmental Activities – in Millions of Dollars

Overall total revenues decreased by 0.3 percent from the fiscal year ended June 30, 2007. Revenue decreases are primarily due to decreases in capital grants and contributions, decreased investment earnings and the sale of land in fiscal year 2007. Revenue decreases were offset by an increase in grants and contributions not restricted to specific programs and increases in property taxes.

Total expenses and special items increased by \$27,023,050, or 5.4 percent from the fiscal year ended June 30, 2007. The increase in instructional expenses of \$19,386,823 is partially attributed to increases in payroll costs and employee benefits. During fiscal year 2008 the District granted a cost of living increase of 3 percent.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2008**

Net Change in Fund Balances - Governmental Funds \$ (10,438,897)

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current period. 86,924,363.00

The statement of activities reflects only the gain/loss on the sale of assets, whereas the governmental funds include all proceeds from these sales. Thus, the change in net assets differs from the change in fund balances by the cost of assets sold. (3,419,354.00)

Issuance costs and premiums on new debt issues are reported when issued as expenditures and other financing sources in the government funds, but are deferred and amortized as expenses over the life of the debt in the statement of activities. 103,443.00

Interest on long-term debt is recognized as an expenditure in the government funds when due, but is recognized as interest accrues in the statement of activities. (22,992.00)

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds exceeded repayments in the current period. 14,690,677.00

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the government funds expenditures are recognized based on the amounts actually paid for leave used. This is the net amount of vacation and sick leave earned in excess of the amount used in the current period. (1,348,298.00)

The net change in the liability for early retirement benefits is reported in the government-wide statement but not in the governmental funds until due. 631,872.00

The net change in the liability for postemployment healthcare benefits is reported in the government-wide statements, but not in the governmental fund statements. (1,047,829.00)

Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities. 2,276,145.00

Change in Net Assets of Governmental Activities \$ 88,349,130

SCHOOL BOARD OF SARASOTA COUNTY, FLORIDA
Notes to the Basic Financial Statements
June 30, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

➤ Reporting Entity

The School Board of Sarasota County, Florida (District) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Sarasota County School District is considered part of the Florida system of public education. The governing body of the school district is the Sarasota County District School Board that is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the School Board. Geographic boundaries of the District correspond with those of Sarasota County.

Criteria for determining if other entities are potential component units which should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the District School Board is financially accountable and other organizations for which the nature and significance of their relationship with the School Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete.

Based on the application of these criteria, the following component unit(s) are included within the District School Board's reporting entity:

- Blended Component Unit The Financing Corporation of the School Board of Sarasota County, Inc. (corporation) was founded to facilitate financing for the acquisition of facilities and equipment as further discussed in Note 7. Due to the substantive economic relationship between the Sarasota County District School Board and the Corporation, the financial activities of the Corporation are included in the accompanying basic financial statements. Separate financial statements for the Corporation are not published.
- Discretely Presented Component Units The component unit(s) columns in the basic financial statements include the financial data of the District's other component units. For financial reporting purposes, nine charter schools are included in the financial statements of the District as discretely presented component units. These schools operate under a charter approved by their sponsor, the Board, and are considered to be component units of the District since they are fiscally dependent on the District to levy taxes for them. The component units are as follows:

Island Village Montessori North, Inc., Island Village Montessori Charter School, Inc., Island Village Middle School, Inc., Sarasota Suncoast Academy, Student Leadership Academy of Venice, Sarasota Military Academy, Inc., Sarasota School of Arts and Sciences, Inc., Suncoast School for Innovative Studies, Inc., and Goodwill Academy (charter schools) are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and section 1002.33, Florida Statutes. The Board is responsible for the prudent use of the public funds received for providing an appropriate educational program for its targeted enrollment. Audits of the Charter Schools for the fiscal year ended June 30, 2008 were conducted by independent certified public accountants and are filed at the District's administrative office at 1960 Landings Boulevard, Sarasota, FL 34231.

➤ Basis of Presentation

Government-wide Financial Statements - Government-wide financial statements, including the statement of net assets and the statement of activities, present information about the School District as a whole. These statements include the nonfiduciary financial activity of the primary government and its component units.

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expenses are allocated to functions/programs of the primary government. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that

are not classified as program revenues are presented as general revenues, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements. Interfund transactions, consisting of transactions involving the internal service funds, were eliminated by allocating the change in net assets of internal service funds in direct proportion as they were charged as expenses to the various function.

Fund Financial Statements - Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements. The District reports the following major governmental funds:

- General Fund - to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Debt Service – Other Debt Service Fund – to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs on the long-term certificates of participation.
- Capital Projects – Local Capital Improvement Tax Fund - to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects.
- Capital Projects – Other Capital Projects – to account for the financial resources such as Sales Tax Proceeds, Impact Fees, Certificates of Participation, etc.

Additionally the District reports the following fund types:

- Internal Service Funds - to account for the District's individual self-insurance programs.
- Agency Funds - to account for resources of the school internal funds which are used to administer moneys collected at the several schools in connection with school, student athletic, class, and club activities.

➤ **Basis of Accounting**

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within

SCHOOL BOARD OF SARASOTA COUNTY, FLORIDA
Notes to the Basic Financial Statements (continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made.

Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The Proprietary Funds are accounted for as proprietary activities under standards issued by the Financial Accounting Standards Board through November 1989 and applicable standards issued by the Governmental Accounting Standards Board. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for workers' compensation and employee dental insurance. Operating expenses include insurance claims and excess coverage premiums. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

The charter schools are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

➤ **Deposits and Investments**

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by the Federal Depository Insurance Corporation (FDIC) and collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes. The statement of cash flows considers cash as those accounts used as demand deposit accounts.

Investments consist of amounts placed with the State Board of Administration for participation in the Local Government Surplus Funds Trust Fund investment pools A and B and those made locally. The investment pool was created by Section 218.405, Florida Statutes. This investment pool operates under investment guidelines established by Section 215.47, Florida Statutes. The District's investments in the Local Government Surplus Funds Trust Fund Pool A, a Securities and Exchange Commission Rule 2a-7 like external investment pool, are reported at fair value which is amortized cost. District investments in Pool B, a fluctuating NAV pool, are reported at fair market value.

Investments made locally consist of treasury money market funds and are reported at fair value. Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

➤ **Inventories**

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on a weighted average basis, except that United States Department of Agriculture surplus commodities are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures at the time individual inventory items are requisitioned for consumption, except for transportation parts. Transportation parts inventory balance is offset on the balance sheet by a fund balance reserve account, which indicates that it does not constitute "available expendable resources" even though it is a component of the current assets.

SCHOOL BOARD OF SARASOTA COUNTY, FLORIDA
Notes to the Basic Financial Statements (continued)
June 30, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

➤ **Capital Assets**

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at historical cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$750. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Improvements Other than Buildings	5 – 40 years
Buildings and Fixed Equipment	10 – 50 years
Furniture, Fixtures and Equipment	3 – 15 years
Motor Vehicles	5 – 10 years
Audio Visual Materials and Computer Software	4 – 5 years

Current-year information relative to changes in general capital assets is described in a subsequent note.

➤ **Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned if the employee's right to receive compensation is attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at June 30 by those employees who are currently eligible to receive termination payments and those employees for whom it is probable that they will become eligible to receive termination benefits in the future. The criteria for determining the vacation and sick leave liability is derived from Board policy, negotiated agreements, and state laws.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the amount of accumulated vacation and sick leave of employees has been recorded as accrued salaries and benefits to the extent that the amounts are expected to be paid. The balance of the liability is not recorded. The liability at year-end includes salary related payments such as Social Security, Medicare and Florida Retirement System contributions.

➤ **Long-Term Liabilities**

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net assets. Bond and certificates of participation premiums and discounts, differences between the reacquisition price and net carrying amount of the old debt, and issuance costs, are deferred and amortized over the life of the bonds and certificates of participation using the effective interest method. Bonds and certificates of participation payable are reported net of the applicable premium or discount and differences between the reacquisition price and the net carrying amount of the old debt.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt

issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Changes in long-term debt for the current year are reported in a subsequent note.

➤ **State Revenue Sources**

Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of nine months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is reserved in the governmental funds financial statements for the unencumbered balance of categorical educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District also received an allocation under the lottery-funded Public School Capital Outlay Program (commonly called the Classrooms First Program). The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of Public Educational Capital Outlay (and the Classrooms First Programs funds) as deferred revenue until such time an encumbrance authorization is received.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

➤ **District Property Taxes**

The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Sarasota County Property Appraiser, and property taxes are collected by the Sarasota County Tax Collector.

The School Board adopted the 2007 tax levy on September 11, 2007. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Sarasota County Tax Collector at fiscal year-end but

Millages and taxes levied for the current year are presented in a subsequent note.

➤ **Federal Revenue Sources**

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

2. BUDGETARY COMPLIANCE AND ACCOUNTABILITY

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the function level within fund (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued.
- Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.
- The reported budgetary data consists of the original budget as well as the final appropriated budget after amendments approved by the board.

Interest Rate Risk

- Section 218.415(17), Florida Statutes, limits investments maturities to provide sufficient liquidity to pay obligations as they come due. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates, but the policy does state that securities should be invested to provide sufficient liquidity to pay obligations as they come due.

Credit Risk

- Section 218.415(17), Florida Statutes, limits investments in money market funds to Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency, and investments in interest-bearing time deposits to qualified public depositories, as defined in Section 280.02, Florida Statutes.
- The District's investment policy authorizes the following investments:
 - Savings accounts.

The forward delivery agreement authorizes the investment of the sinking fund amounts in certain eligible securities, including, without limitation, the Federal National Mortgage Association (FNMA) and Federal Home Loan Mortgage Corporation (FHLMC). The eligible securities must have a maturity date that is on or before November 16, 2021.

Custodial Credit Risk

- Section 218.415(18), Florida Statutes, requires the District to earmark all investments and 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; 2) if in a book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other State or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. The District's \$15,182,234 investment in the Treasury and Government Money Market Fund, 100 percent comprised of U.S. Treasury Bills and Notes, are held by the safekeeping agent, in the name of the District.

Concentration of Credit Risk

- Section 218.415(17), Florida Statutes, authorizes the District to invest in the Local Government Surplus Funds Trust Fund, any intergovernmental investment pool, the money market funds registered with the Securities and Exchange Commission, interest-bearing time deposits or saving accounts, and direct obligations of the U.S. Treasury.
- Investments at June 30, 2008 are comprised of 89 percent in the State Board of Administration investment pool A. The weighted average maturity of the portfolio may not exceed 90 days

On July 1, 2005, the Florida Department of Education issued Capital Outlay Refunding Bonds, 2005 Series B, with an average interest rate of 4.99 percent, to advance-refund callable portions of the District's State School Bonds, Series 1998A and 2000A. The Refunding Bonds were issued to advance-refund the \$6,510,000 principal amount of the District's State School Bonds, Series 1998A, that mature on or after January 1, 2029 and \$1,630,000 principal amount of the District's State School Bonds, Series 2000A, that mature on or after January 2011. As a result, \$8,140,000 of the State School Bonds, Series 1998A and 2000A are considered to be in-substance defeased and the liability for these bonds has been removed from the government-wide financial statements.

In connection with the financing, the District entered into a forward delivery agreement dated November 16, 2005, requiring a single deposit of \$726,519 into a sinking fund. The invested assets accumulated pursuant to the forward delivery agreement are held under a custodial agreement until the debt matures. There is \$802,414 in this sinking fun at June 30, 2008.

16. STATE RETIREMENT PROGRAMS

Defined Benefit Plan. All regular employees of the District are covered by the Florida Retirement System (FRS). The FRS is primarily a State-administered cost-sharing multiple-employer defined benefit retirement plan (Plan). Plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein Plan eligibility, contributions, and benefits are defined and described in detail. Essentially all regular employees of participating employers are eligible and must enroll as members of the FRS. Benefits in the defined benefit plan vest at six years of service. The defined benefit plan also includes an early retirement provision, but imposes a penalty for each year a member retires before the specified retirement age. The defined benefit plan provides retirement, disability, and death benefits and annual cost-of-living adjustments, as well as supplements for certain employees to cover social security benefits lost by virtue of retirement system membership.

16. STATE RETIREMENT PROGRAMS (continued)

A Deferred Retirement Option Program (DROP) subject to provisions of Section 121.091, Florida Statutes permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in the DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

Funding Policy. The contribution rates for Plan members are established and may be amended by the State of Florida. During the 2007-2008 fiscal year, contribution rates were as follows:

Class or Plan	Percent of Gross Salary	
	Employee	Employer(A)
Florida Retirement System, Regular	0.00	9.85%
Florida Retirement System, County Elected Officials	0.00	16.53%
Florida Retirement System, Sr. Management Service	0.00	13.12%
Florida Retirement System, DROP, Teachers' Retirement System DROP	0.00	10.91%
Florida Retirement Special Risk System	0.00	20.92%
Florida Retirement System, Reemployed Retiree	(B)	(B)

Note: (A) Employer rates include the post-employment health insurance supplement of 1.11 percent and 0.05 percent for administrative cost of the Public Employee Optional Retirement Program.

(B) Contribution rates are dependent upon the retirement class in which reemployed.

The District's liability for participation in the Plan is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District's contributions to the Plan (including employee contributions) for the fiscal years ended June 30, 2006, June 30, 2007, and June 30, 2008 totaled \$17,713,926, \$23,724,441 and \$24,333,012 respectively, which were equal to the required contributions for each fiscal year.

Defined Contribution Plan. Effective September 1, 2002 the Public Employee Optional Retirement Program (PEORP) was implemented as a defined contribution plan alternative available to all FRS members in lieu of the defined benefit plan. Employer contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The PEORP is funded by employer contributions that are based on salary and membership class (Regular Class, Special Risk Class, etc.). Contributions are directed to the individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. There were 670 District participants in the PEORP during the 2007-08 fiscal year. Required employer contributions made to the program for the fiscal years ended June 30, 2008 totaled \$2,355,050.

Pension Reporting. The financial statements and other supplemental information of the FRS are included in the comprehensive annual financial report of the State of Florida, which may be obtained by contacting the Department of Financial Services in Tallahassee, Florida. Also, an annual report on the FRS, which includes its financial statements, required supplemental information, actuarial report, and other relevant information, may be obtained from the State of Florida, Division of Retirement in Tallahassee, Florida. An annual report on the Plan which includes its financial statements, required supplemental, actuarial report, and other relevant information may also be obtained by contracting the Florida Department of Management Services, Division of Retirement, 2639 North Monroe Street, Building C, Tallahassee, Florida, 32399-1560.

17. SPECIAL TERMINATION BENEFITS

On May 18, 1993, the Board approved the establishment of a one-time early retirement incentive program for members of the instructional and classified collective bargaining units and its administrative personnel who signed an agreement to participate in the program and agreed to retire from employment under the provisions of the Florida Retirement System as explained in Note 16. The early out program was offered only until August 15, 1993. Participating employees were required to select an option under the existing provisions of the Florida Retirement System which pays over the life of the employee the maximum retirement benefit payable, forfeiting an option which would pay decreased retirement benefits for the lifetime of both the employee and a

joint annuitant (Survivor). To compensate for the loss of these extended survivor benefits, the School Board, as part of the Early Out Program, purchased on behalf of participating employees a flexible premium universal life insurance policy to be paid for over the life of the retiree, providing death benefits upon the qualified employee's death equaling the amount the survivor would have received, including a 3 percent annual cost of living adjustment (COLA), had the qualified employee selected the Florida Retirement System option which paid survivor benefits. Premiums are to be paid for over the life of the participating employee. The District reported a liability of \$4,406,737 in the Statement of Net Assets representing the present value of the estimated future payments for life insurance coverages for the 147 employees who elected to retire during the 1992-93 and 1993-94 fiscal years and participate in the program.

18. POSTEMPLOYMENT HEALTH CARE BENEFITS

Plan Description – Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retiree from the District and eligible dependents, may continue to participate in the district's self-insured health and hospitalization plan for medical, prescription drug, dental and vision coverages. The District subsidizes the premium rates paid by the retirees by allowing them to participate in the plan at reduced or blended group (implicit subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. The benefits provided under this defined benefit plan are provided for a fixed number of years determined at the time of retirement based on the number of years worked for the District. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible.

Funding Policy – The District has not advanced-funded or established a funding methodology for the annual Other Postemployment Benefit (OPEB) costs or the net OPRB obligation. For the 2007-08 fiscal year, 486 retirees and eligible dependents received postemployment health care benefits. The District provided required contributions of \$876,002 toward annual OPEB costs, comprised of benefit payments made on behalf of retirees for claims expenses (net of reinsurance), administrative expenses, and reinsurance payments, and net of retiree contributions totaling \$2,933,410. Required contributions are based on projected pay-as-you-go financing.

Annual OPEB Cost and Net OPEB Obligation – The following table shows the District’s annual OPB cost for the year, the amount actually contributed to the plan, and changes in the District’s net OPEB obligation:

<u>Description</u>	<u>Amount</u>
Normal Cost (service cost for one year)	
Amortization of Unfunded Actuarial Accrued Liability	1,050,670 793,041
Interest on Normal Cost and Amortization	<u>73,748</u>
Annual Required Contribution	1,917,459
Interest on Net OPEB Obligation	59,475
Adjustment to Annual Required Contribution	<u>(53,103)</u>
Annual OPEB Cost (expense)	1,923,831
Contribution Toward the OPEB Cost	<u>(876,002)</u>
Increase in Net OPEB Obligation	1,047,829
Net OPEB Obligation, Beginning of Year	<u>1,486,864</u>
Net OPEB Obligation, End of Year	<u><u>\$ 2,534,693</u></u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2008, was as follows:

<u>Fiscal Year</u>	<u>Annual OPEB Cost</u>	<u>Amount Contributed</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
Beginning Balance, 7-1-06	\$ -			\$ -
2006-07	1,794,183	307,319	17.1%	1,486,864
2007-08	1,923,831	876,002	45.5%	2,534,693

Funded Status and Funding Progress – As of June 30, 2007, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$2,534,693, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$2,534,693. The covered payroll (annual payroll for active participating employees) was \$283,270,928 for the 2007-08 fiscal year, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 8.1 percent.

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. Projections of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the type of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods

18. POSTEMPLOYMENT HEALTH CARE BENEFITS (continued)

and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District's initial OPEB actuarial valuation as of July 1, 2006, used the entry age actuarial cost method to estimate both the unfunded actuarial liability as of June 30, 2008 and to estimate the District's 2007-08 fiscal year annual required contribution. This method was selected because it produced the best estimate of the OPEB liability and annual cost. Because the OPEB liability is currently unfunded, the actuarial assumptions include a 4 percent rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial assumptions also include a payroll growth of 3.50 percent per year, and an annual healthcare cost trend rate of 12.50 percent initially for the 2006-07 fiscal year, reduced by 1 percent per year, to an ultimate rate of 5.50 percent after 6 years. The unfunded actuarial accrued liability is being amortized as a level of percentage of projected payroll growth on an open basis. The remaining amortization period at June 30, 2008 is 28 years.

18. RISK MANAGEMENT PROGRAMS

The District has established a cafeteria plan under Section 125 of the Internal Revenue Code whereby the Board will purchase various insurance products for the employee. In addition, an employee may purchase additional insurance, which qualifies for salary reduction under Internal Revenue Service guidelines. The cafeteria plan is accounted for as an Internal Service Fund.

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Workers' compensation, automobile liability, and general liability coverage, and certain dental benefits contained within the District's cafeteria plan, are being provided on a self-insured basis up to specified limits. The District has contracted with an insurance administrator to administer the worker's compensation and dental benefits self-insurance programs, including the processing, investigation, and payment of claims. The District has entered into an insurance agreement for their worker's compensation plan to provide specific excess coverage of claim amounts above the stated amount on an individual claim basis and aggregate excess coverage up to \$25 million. For general liability coverage the District depends on the Florida Sovereign Immunity Act, Section 768.28, Florida Statutes, to limit their potential tort liability to \$100,000 per person or \$200,000 per occurrence.

The District's health and hospitalization insurance program is administered by an insurance carrier under an agreement wherein the total premium is divided into equal monthly payments.

A liability in the amount of \$7,814,471 for the worker's compensation, the general liability, the auto liability, and the dental liability funds was actuarially determined to cover estimated incurred but not reported insurance claims payable at June 30, 2008, and is net of excess insurance recoverable on unpaid claims. A liability in the amount of \$123,783 relates to the District's cafeteria plan fund. Nonincremental claims expense have been included as part of the liabilities.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insurance program.

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year End
2006-2007	\$ 7,909,905	\$ 4,185,301	\$ (4,001,031)	\$ 8,094,175
2007-2008	8,094,175	3,480,614	(3,636,235)	7,938,554

19. LITIGATION

The District is contingently liable with respect to lawsuits and other claims that arise in the ordinary course of its operations. Management believes that any liability arising from such claims would be immaterial to the financial statements.

20. CONTINGENCY

The District receives grant funds from the federal government. Certain expenditures of these funds are subject to audit by the grantor, and the reporting entity is contingently liable to refund amounts received in excess of allowable expenditures. In the opinion of the management of the District, no material refunds will be required as a result of expenditures disallowed by the grantors.
