

How to look up Sarasota County School Zones

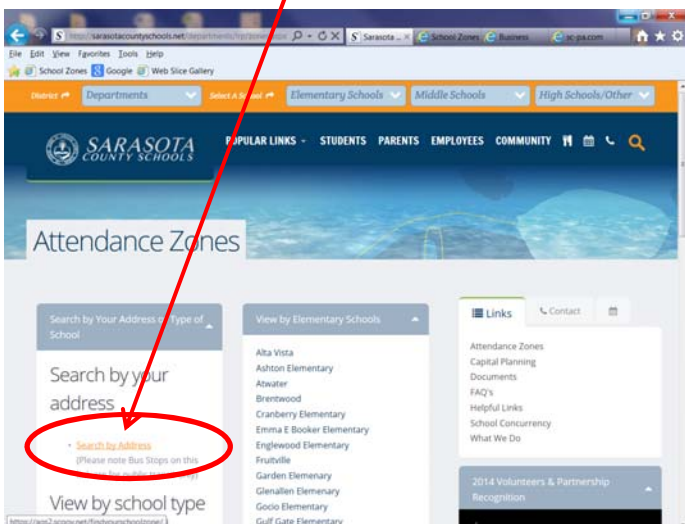

1 Go to www.sarasotacountyschools.net

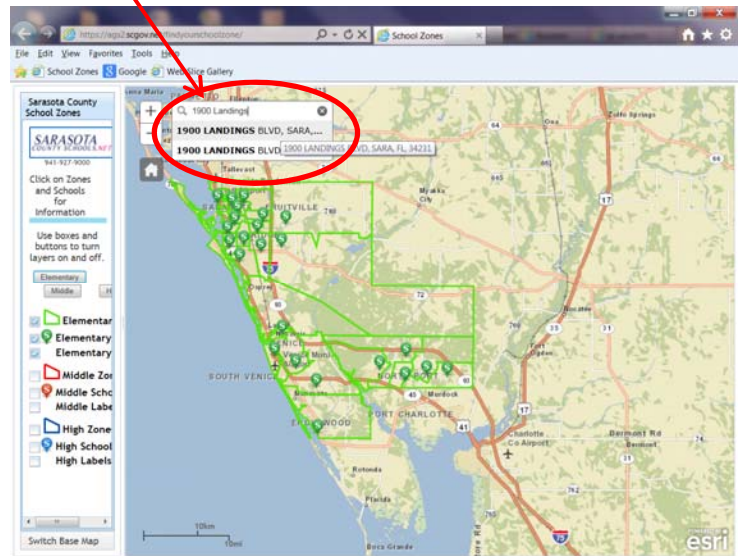

2 Scroll down on this page and click on Attendance Zones By School

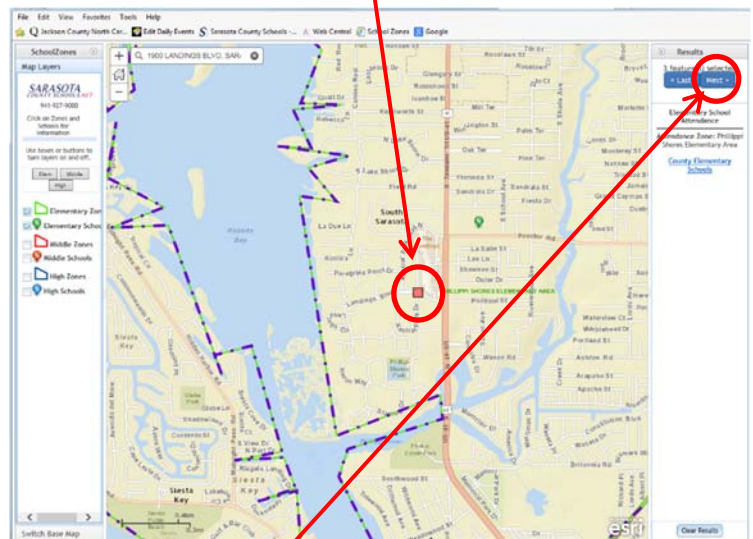

3 Now click on Search by Address

4 A new page will open. This is where you type in the street address. When this field populates, click on the correct listing.

5 After you click on the correct listing the map will zoom to the address and a Results column will open on the right of the page and will show the schools for that address.

6 If you click on next it will show you the elementary, middle and high schools for that address.

Please call the Sarasota County School's Planning Department if you need further assistance.
