

Good morning Sarasota Middle School Today is Friday, February 8, 2019

Today is the last day of our 2nd Attendance Survey window of the school year and it will last until February 8th. It is imperative that attendance be recorded in Gradebook during the first 10 minutes of class (PE classes – as soon as possible). This survey helps determine our funding for the school year, so attendance must be accurate. Thank you all for your help!

Staff and students-the 1st SMS Garden Club Meeting will be on Tuesday, February 12th at 8:30 am in Room 603? We will be painting flower pots, planting seeds, and planning the SMS Garden, which will be planted later in February. Anyone with interest in gardening and growing fresh food should attend!

Riverview High School will hold their Student and Parent Information Night (SPIN) on Wednesday February 13th from 6-8pm. SPIN is designed for current 8th grade students and families and allows rising freshmen to come out and see the many wonderful opportunities that exist on the RHS campus. All student clubs and organizations will be on hand that evening with displays set up and the hopes of gaining new members. Sports teams will be represented by coaches and players, cheerleader demonstrations will be held in the courtyard, there will be art and science displays to explore, musical performances to enjoy, as well as tours of both the planetarium and aquaculture facility. This year we will have both the Fire Taco food truck and Kona Ice truck on site should you care to purchase refreshments. This program is being held in an open house format so feel free to drop by any time between 6 and 8pm on Wednesday February 13th, and to stay for as long as you like

February's career cluster is focused on Engineering. Did you know there are many different types of jobs in Engineering? Some of the options are Aerospace Engineering, Agricultural Engineering, Biomedical and Chemical Engineering and Environmental Engineering. One of the best places in Florida to study and earn an engineering degree is Florida Gulf Coast University. FGCU is a small campus located in Southeast Florida near the Everglades and offers small class sizes along with excellent programs in Engineering.

All busses have arrived on time and all students should be in their 1st period class at this time.

Students, remember our Panther Pact: be Polite, Prepared, Productive and Safe!

Have a fabulous Friday!
