

TECHNOLOGY STUDENT ASSOCIATION®

Highlighting the value of your TSA membership on your **college and job applications** will help you stand out as an applicant.

- Increases **student engagement** in academic and occupational pursuits
- Enhances student **self-esteem, self-confidence, and problem solving** ability
- Connects school-based learning and **real world experiences**
- Develops **leadership, organizational and communication** skills

TSA offers **MORE THAN 60 COMPETITIVE EVENTS** covering areas such as design, engineering, environmental systems, transportation, manufacturing, and leadership

Students can **WORK INDIVIDUALLY OR AS A TEAM** in such areas as biotechnology, web design, dragster design, flight challenge, film technology, CAD, desktop publishing, speech, radio controlled transportation, and more

The skills and experiences gained through TSA are invaluable as members transition into **COLLEGE AND CAREER PATHWAYS**

All competitions are aligned with **STEM STANDARDS** and the 16 career clusters recognized by the US Department of Education

Together, chapter members work on competitive events & attend conferences on the **state** and **national** levels
